Letter No 1954 dated 29-5-1946 from the Chairman City Improvement Trust Board Bangalore

Requests sanction of Govt to the purchase of 1000 corrugated ~~de~~ asbestos sheets from the Army Disposal Directorate at Kushnaragapuram for being utilised on housing schemes of the City Improvement Trust Board.

Srbd.

It is reported by the Chairman City Improvement Trust Board, Bangalore that the Controller of Civil Supplies telephoned to him on 28-5-1946 that the Army Disposal Directorate intend to sell about 6000 ~~de~~ asbestos sheets available at their Depot at Kushnaragapuram, and that the Minister for Education has suggested their purchase by the C.I.T.B. Bangalore for being utilised on its housing schemes. It is seen that prices will be at the controlled rate.

2. Although the Board has no housing scheme on hand at present, it is reported by the Chairman that about 50 barrack like qrs.

NOTE—Contn Sheet

will have to be constructed on the Kannara Park west Extension for the temporary housing of the displaced families of Dolspet and Appanahalli as per the suggestion of the Deputy during his recent inspection of the site of the said ~~property~~ extension. For housing arrangements of ~~about~~ 50 units, it is estimated by the Engineer officer that 175 squares of 1000 corrugated sheets of the size of 10'x3' will be required. The cost of 4000 sheets will be between Rs 25000 and Rs 30,000/-

3 The Chairman regrets that there is no time to consult the Board as it will meet only on the 8th of next month. As reported by him 90 corrugated sheets will be required the Board, the cost of the being met from the funds of Board. He also desires that the offer of Civil Supplies may be met of the owners of Govt. quarters

4 Sanction may be accorded to the proposal of the Chairman Municipal Improvement Trust

9605

Board to purchase 1000 Corrugated asbestos sheets for purpose of housing those displaced from Dobspet & Uppanahally, the cost being met from the funds of the Board. The cost will be between 6000 & 7500 Rs. The Chairman has stated that the material will be inspected by the Engineer-Member before purchasing them.

9 Asbestos sheets do not "deteriorate rapidly" as feared. But sometimes these sheets might crack due to people walking on the roof or stray stones being dropped on which case it would be difficult to replace the damaged sheet. Hitherto I did not recommend roofing with these sheets for poor houses as the weather protection offered by this material is only slightly better than that given by zinc sheets further the cost of this sheets is said to be about 6s a sq ft whilst the cost of woodwork roof, the total cost of the roof would be cheaper than the terrace for all new houses to be built it is best to adopt only terrace roof of what is known as "brick nogging" type which does not involve the use of any of outside material

THE CITY IMPROVEMENT TRUST BOARD,
'Ranga Vilas', Seshadri Road,
Bangalore, dated 29th May 1946

No 1954

8605
30 MAY 1946
L S G BRANCH

To

J B MALLARADHYA, Esq , M A ,
Secretary to Government of Mysore,
Revenue Department, Bangalore

Sir,

I have the honour to state that the Controller of Civil Supplies in Mysore telephoned to me yesterday that the Army Disposal Directorate had for sale about 6,000 asbestos sheets available at their Depot at Krishnarajapuram and that the Minister for Education had suggested their purchase by the Bangalore City Improvement Trust Board for being utilised on its housing schemes He said that the price would be at the controlled rates fixed for the sheets of the Indian Asbestos Company for sale to the public less a small discount.

The Board has no housing programme on hand, but it was suggested by the Dewan during his recent inspection of the site of the proposed Kumara Park West Extension that the Board might construct some barrack-like units for the temporary accommodation of the displaced families of Dobspet and Upparahalli Mr Krumbiegal is now studying the layout plan of the extension for the purpose of selecting suitable sites for these barracks The extent which will be available here for putting up the barracks is not exactly known, but it is believed that there would be enough space for at least 50 units The Engineer Officer estimates that 175 squares or 1,000 corrugated sheets of the standard size of 6' by 3' will be required for roofing 50 units He desires me to add that asbestos sheets deteriorate very rapidly and that unless they can be had very cheap, it is not worthwhile going in for them The Controller of Civil Supplies told me that the cost of 4,000 sheets would be between Rs 25,000/- and Rs 30,000/- Unfortunately there is no time to consult the Board as the Controller gave me the information in the afternoon while the Board held its meeting in the morning It will not meet again till the 8th of next month As the Controller wanted a firm order before this evening, I am reporting the circumstances to Government for their orders If it is decided to purchase 1,000 corrogated sheets for the Board, the Controller of Civil Supplies may be kindly informed accordingly The cost will be met from the funds of the Board

The Controller told me that the Engineer Officer of the Board would have an opportunity of inspecting the material before the bargain is concluded.

I have the honour to be,
Sir,
Your most obedient servant,

Chairman,
City Improvement Trust Board,
Bangalore

Pt 7.46

To

The Chairman,
City Improvement Trust Board
Bangalore.

Sir

Subject: Purchase of corrugated asbestos sheets for the housing schemes of the City Improvement Trust Board.

With reference to your letter No 1954 dated 29 5 46, requesting sanction of Govt to the purchase of 1000 corrugated asbestos sheet from the Army Disposal Directorate at Krishnarajapuram for being utilised on housing schemes of the Trust Board, I am directed to state that the Chief Engineer i/c Roads

WD 03697—GPB—30 000—2 2 46

and Buildings who was
consulted in the matter
states that as the weather protection
offered by these sheets is only
slightly better than that
given by zinc sheets and
as the total cost of the sheets
and the wood work required
would not be cheaper than
the terrace, he is not in favour
of recommending the roofing
of the poor houses with these
sheets. Further, he is of
opinion that for all new
houses to be built, it is best
to adopt only Terrace roof
of the type of "brick noggin
which does not involve the
use of any outside material
Having regard to these facts, it is not necessary to purchase asbestos sheets as yet for the present
